PROFESSIONAL SUMMARY

Pre-final year B.Tech Information Technology student at Government Engineering College Idukki (KTU) with hands-on experience in AI-powered web applications, machine learning, data analysis, and frontend development. Experienced in building and deploying real-world projects using Python, JavaScript, SQL, HTML, CSS, and GitHub. Passionate about Artificial Intelligence, Data Science, and Software Development, with a strong interest in solving practical problems through technology.

EDUCATION

Government Engineering College Idukki (KTU)
Bachelor of Technology — Information Technology
CGPA: 7.44

Expected 2028

EXPERIENCE

Pluto Academy

June 2026

AI & Machine Learning Intern

- Worked on machine learning workflows using Python, Pandas, NumPy, and Scikit-learn.
- Performed data preprocessing, exploratory data analysis, and model evaluation.
- Applied regression and classification techniques to real-world datasets.
- Developed practical understanding of AI and ML concepts through hands-on projects.

TECHNICAL SKILLS

Programming Languages

Python · JavaScript · C · SQL

Data Science & AI

Pandas · NumPy · Scikit-learn · Matplotlib Data Analysis ·
Machine Learning · Generative AI · LLMs

Web Development

HTML5 · CSS3 · JavaScript · Tailwind CSS · GitHub Pages

Tools & Platforms

Jupyter · Google Colab · Anaconda · Git & GitHub VS Code ·
Cisco Packet Tracer

PROJECTS

ResumeMatch AI Lite | [HTML](#) · [CSS](#) · [JavaScript](#) · [Tailwind CSS](#) · [GitHub Pages](#)

- Built and deployed an AI-powered career toolkit as a responsive Single Page Application (SPA).
- Developed ATS Resume Analyzer, Resume Score Calculator, Keyword Checker, and Skill Gap Analysis modules.
- Implemented Career Roadmap Generator and Cover Letter Generator.
- Designed a mobile-first UI optimized for students and job seekers.

Live: <https://ameersuhail799.github.io/ResumeMatch-AI-Lite/>

BunkBuddy | [HTML](#) · [CSS](#) · [JavaScript](#) · [Tailwind CSS](#) · [GitHub Pages](#)

- Developed a student attendance management platform with productivity-focused tools.
- Built Attendance Calculator, Subject Tracker, Attendance Simulator, and Recovery Planner modules.
- Implemented attendance forecasting features to help students maintain attendance requirements.
- Designed a responsive and user-friendly interface.

Live: <https://ameersuhail799.github.io/BunkBuddy/>

House Price Prediction using Machine Learning | [Python](#) · [Scikit-learn](#) · [Pandas](#) · [NumPy](#) · [Matplotlib](#)

- Built a Linear Regression model to predict house prices using multiple property features.

- Performed data preprocessing, feature engineering, and exploratory data analysis.
- Visualized trends and patterns using Matplotlib; evaluated model with R^2 Score and RMSE.

Restaurant Management System | SQL · DBMS

- Designed a relational database system for menu management, orders, billing, and customer records.
- Applied normalization techniques and ER modelling.
- Developed SQL queries for efficient data retrieval and reporting.
